ROW CROP PRODUCTION UPDATED

OKLAHOMA: Production prospects increased from October for grain sorghum while corn, cotton, peanuts and soybeans remained the same, according to the USDA-NASS Oklahoma Field Office.

Production of corn for grain is forecast at 29.7 million bushels, the same as last month but down 1 percent from 2004. An average yield of 135.0 bushels is expected from 220,000 harvested acres.

Soybean production is forecast at 7.25 million bushels, the same as last month but 17 percent below 2004. An average yield of 25.0 bushels per acre is expected from 290,000 acres.

Production of grain sorghum is now forecast at 11.88 million bushels, up 4 percent from last month but 17 percent below last year. An average yield of 54.0 bushels per acre is expected from 220,000 acres.

Cotton production is forecast at 340,000 bales, the same as last month but 12 percent above 2004. A record high yield of 742 pounds per acre is expected from 220,000 acres.

Peanut production is forecast at 105.6 million pounds, the same as last month but 3 percent above last year. A record high yield of 3,200 pounds is expected from 33,000 harvest acres.

UNITED STATES: Corn production is forecast at 11.0 billion bushels, up 2 percent from last month but 7 percent below 2004. Yields are expected to average 148.4 bushels per acre, up 2.3 bushels from October but down 12.0 bushels from last year. If realized, both yield and production would be the second largest on record.

Soybean production is forecast at 3.04 billion bushels, up 3 percent from October, but 3 percent below 2004. Yields are expected to average a record high 42.7 bushels per acre, up 1.1 bushels from October.

Sorghum production is forecast at 388 million bushels, up 3 percent from last month but down 15 percent from last year. Yield is forecast at 68.2 bushels per acre, up 2.2 bushels from October. Area for harvest as grain is forecast at 5.69 million acres.

All cotton production is forecast at 23.2 million bales, up 2 percent from October but slightly below last year's record high production. Yield is expected to average 813 pounds per harvested acre, up 16 pounds from last month.

Peanut production is forecast at 4.66 billion pounds, down 5 percent from last month but 9 percent above 2004. Yields are expected to average 2,898 pounds, 163 pounds below last month but down 178 pounds from 2004.
